## Using Right Angle Prisms

### No. 59012

#### Sokkia Double Right Angle Prism

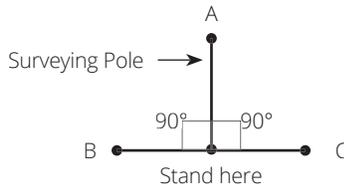

- Double Pentaprisms
- Fast right angle sighting in either direction.
- Slotted hollow handle for attaching plumb bob cord.
- Extra wide yellow tinted viewing window makes targeting easy.
- Protective cover rotates to expose prism.
- Includes belt-looped leather case.

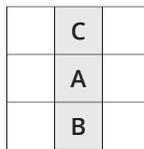

### MEASUREMENT PROCEDURE

Prism should be joined to a plumb bob and held in your hand.

#### Orientation

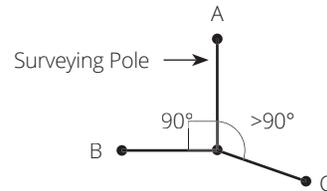

#### Prism View

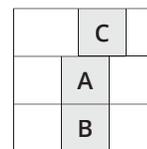

#### Correct

Precise right angle to both the right and left, while at the same time allowing the user to view straight ahead.

#### Orientation

#### Prism View

#### Incorrect

The C is not rectilinear view, meaning that the angle is not 90°.
